

THE BALANCE — Survival Field Manual

A Complete Guide to Disaster Preparedness, Survival, and Recovery

Prepared as a universal manual of survival, resilience, and planetary stewardship, combining technical survival procedures, herbal medicine, scavenging, chronic illness management, and traditional wisdom.

Preface

This field manual distills lessons from religious texts, indigenous wisdom, survival training, and modern ecological science. It is written in a technical manual style so it can be used during crises — both natural and human-made. It covers daily living, disaster response, health care without pharmaceuticals, improvised tools, and methods to rebuild balance with the Earth.

Chapter 1 – The Earth Code: 10 Golden Rules of Balance

- 1. Protect water sources.
- 2. Respect soil and avoid over-farming.
- 3. Take only what is needed from animals and plants.
- 4. Reduce fire risk.
- 5. Store food and prepare for scarcity.
- 6. Respect community agreements.
- 7. Care for children, elders, and sick.
- 8. Share knowledge across generations.
- 9. Minimize waste.
- 10. Live as part of nature, not above it.

Chapter 7 – Scavenging for Tools & Materials

- Old cars: strip batteries, wiring, mirrors, and metal panels.
- Ruined houses: salvage nails, wood beams, insulation, pipes.
- Industrial buildings: collect barrels, sheet metal, wiring.
- Broken sheds: hinges, locks, tools, and storage containers.

Chapter 10 – Chronic Illness Survival (Asthma, Diabetes, etc.)

- Asthma: herbal steam inhalations (thyme, eucalyptus, peppermint).
- Diabetes: control with low-carb survival diet, bitter melon, and strict rationing.
- Other conditions: identify plant-based substitutes and scavenged medicines.

Chapter 11 – Asthma Without Pharmaceuticals

- Daily: ginger, turmeric, licorice, garlic, onion.
- Acute attacks: thyme + peppermint + eucalyptus steam.
- Emergency: ginger tea, peppermint inhalation, chew licorice root.

Chapter 12 – Herbal Remedies for Asthma

- Licorice root: soothes airways.
- Ginger: relaxes bronchial muscles.
- Turmeric: reduces inflammation.
- Thyme: loosens mucus.
- Peppermint: relaxes airways.
- Eucalyptus: opens airways.
- Ephedra: last-resort bronchodilator.

Chapter 13 – Survival Herbal Vape Inhalers

- Hydrosols made via steam distillation are safest for vaping.
- Daily anti-inflammatory blend: ginger 40%, licorice 30%, turmeric 20%, peppermint 10%.
- Acute relief blend: thyme 40%, eucalyptus 35%, peppermint 25%.
- Emergency blend: ginger 50%, peppermint 30%, licorice 20% (Ephedra 5–10% max).
- Always dilute, filter, and use low power settings.

Conclusion

Balance is survival. This manual provides the rules, remedies, and resourcefulness needed to endure disasters, protect the Earth, and rebuild civilization. By following these guidelines, humanity can move from collapse to renewal.
